Konrad Talik

Senior Software Engineer and Tech Lead with AI background

📞 +48 510 179 127 ✉ konrad@kondz.io 📌 Poland ⌨ https://github.com/ktalik 🌐 https://kondz.io

PROFILE

Product-oriented and customer-centric tech lead. Problem-solver for scaling organizations. Background in AI - academic and startup levels.

EXPERIENCE

2024-09 **Tech Lead of get.chat Team** · 360Dialog
2025-11 After in 2024 get.chat IP was sold to 360Dialog, I have joined the company as one of the tech leads. Led a team of 3 that elevated the product, and integrated it with the company tech stack. Onboarded the first partner of the new get.chat value proposition. The partner was a holding company with 100+ service providers, 10k+ online stores.

2021-11 **Co-Founder & CTO** · get.chat sp. z o.o.
2024-08 Co-founded and bootstraped an MVP that makes it easier for SMBs and ISVs to enter the messaging business with WhatsApp Business Platform. Earned hundreds of satisfied customers, dozens of ISV partners, and white labels. Led 3 teams of 15 developers. Startup exited in 2024.

2019-08 **Data Processing Engineer** · Crawlinski sp. z o.o.
2021-04 Built a server that scales network I/O operations, based on a custom-made Docker Compose cluster management algorithm that dynamically allocates resources in an adaptive manner.

2018-04 **Full Stack Machine Learning Engineer** · emporia Telecom
2019-07 Delivered machine learning based recommendation system and content management frontend for pre-installed software of the global mobile device manufacturer. Tech: Python Django, HTML/CSS, Scikit-Learn.

2017-08 **AI System Engineer** · Next42 sp. z o.o.
2018-01 **(Part Time)** Coded web crawling, and scraping software as microservices. Tech: Docker Compose, Python, Asyncio, Beautiful Soup.

2015-08 **Software Engineer** · AppGuide sp. z o.o.
2018-04 Built company's PoC and production business logic from scratch, enabling revenue growth. System Eng. in Python, Docker, Django, PostgreSQL

SKILLS - PROFICIENT LEVEL

Programming
Software Development
Software Architecture
Scrum, Kanban, Extreme Programming
Continuous Integration/Delivery/Deployment
Creative Thinking
Time management
Documentation
Adaptability
Negotiation

SKILLS - INTERMEDIATE LEVEL

Team Leadership
Product Management
Customer Support

TECHNOLOGY - PROFICIENT LEVEL

Python, Git, GitLab CI/CD, PostgreSQL, PL/pgSQL, Asyncio, HTML/CSS, Docker, Kubernets, Django, Scikit-Learn, Pandas.

TECHNOLOGY - INTERMEDIATE LEVEL

GNU/Linux, Docker, C/C++, Fast API, AIOHTTP, Qt, Qt3D, Google Cloud Platform.

EDUCATION

Jagiellonian University in Cracow
2014-2016 **MSc, Computer Science**
2011-2014 **BSc, Computer Science**
Specialty: *Modeling, cognition and control*
MSc thesis on Artificial Neural Networks

English: CEFR B2 (upper intermediate)

CERTIFICATIONS

Artificial Intelligence
CS188.1x: a course of study by UC Berkeley through edX - November 2012
